# OUR STORY

Emerging Routes Canada (ERC) is a student led non-profit organization, dedicated to providing support, guidance, and empowerment to secondary school students in need of social-emotional intervention. We aim to achieve our core objectives through the implementation of targeted intervention in accordance with Response to Intervention (RTI) designs already in place within secondary schools. We aim to aid students in need of social-emotional intervention by acting as a source of rehabilitation which serves as an alternative to punishing students with emotional-behaviour disorders (EBD). This is achieved by tailoring our programs to the needs of our partner school and by implementing programs to a population of interest identified by our partner school.

“ *I have noticed the impact on students' personal growth after working with mentors of the ERC.* ”

**Mr. Gary Sidhu**

Teacher | Princess Margaret Secondary School

# OUR PHILOSOPHY

## Our Approach

The ERC emphasizes a holistic approach to intervention. Regimens for students are unique to that individual's specific learning needs. Generally, intervention strategies include workshops, mentorship, and various re-integration approaches that work alongside the partner school's antecedent programs.

## Why Get Involved?

The ERC provides passionate young volunteers with a unique way to give back to their community -- one which few others can boast. We offer our members first-hand community involvement through the generation and presentation of workshops and mentorship opportunities, thereby equipping our members with the skills and confidence to succeed in any future endeavours. We consist of a small, like-minded team fueled by a burning passion for humanitarianism.
